Quality for life

Automatic pump control

EPC-1

PRODUCT INTRODUCTION

- Use for all household water system
- Control the pump to run at a constant flow
- The Electronic Controller orders the automatic start and stop of the water pump when opening or closing any tap or valve of the system
- Completely replaced traditional pump control system composed of pressure switch, pressure tank and check valve etc.

BENEFIT FOR CUSTOMERS

- Adjustable starting pressure
- Water shortage protection
- Automatic restart in case of water failure
- Water pump impeller jammed protection
- Pipeline leakage protection
- Flow switch jammed protection
